 - Stern devices (e.g. propeller shafts, stern tubes)
 - Rudder carriers and other devices

Major Products / Technologies / Services

- Processing long-length products such as propellers
- Processing and assembling hydraulic apparatuses such as pusher barges, etc.

Business Conduct in the Field of Renewable Energy

Introduction

ENA SEISAKUSHO mainly processes and assembles rigging for ships at this stage, but now we have a new factory for processing and assembling large parts, targeting offshore wind turbines for our future business.

ENA SEISAKUSHO has installed and started large-size NC boring machine (by Toshiba Machine) and NC turning machine (by O-M Ltd.) into operation.

Areas of Interest

Photovoltaic	Smart Community
Wind Power	Ground-Source Heat
Hydropower	Storage Batteries
Biomass	Hydrogen Energy
