Technical Services

Basic Information

Representative	Naoki Takehara, Representative Director		
Address	13-2 Kamitobakanabotoke, Minami-ku, Kyoto City, Kyoto 601-8175		
Capital	-	Employees	4
Telephone	+81-75-748-6612	Fax	+81-75-748-6645
Website	http://j-pia.or.jp		
Affiliated Companies			
Major Clients	Members of the Association		
Contact Person	Kouchi, PIA headquarters E-mail : kouchi@j-pia.or.jp		

Areas of Business

- Promotion activities of photovoltaic power system maintenance
- Hosting workshops / lectures for training maintenance engineers for engineering qualifications
- Promotion of maintenance standardization

Major Products / Technologies / Services

- Original manuals for maintenance and inspection (basic version, collected forms of written applications, calculating price integration)
- Original textbooks for workshops certifying engineers (Day 1, Day 2)

Business Conduct in the Field of Renewable Energy

Introduction

Photovoltaic Inspection Association, an organization established for the sound management of photovoltaic power system, is educating engineers and promoting the importance of maintenance.

To achieve our objectives, PIA hosts workshops for engineering qualification to corporations conducting maintenance, as well as seminars for general participants.

Track Record

- Seminars for general participants (Hosted at 78 sites all over Japan. A total of 1,416 participants)
- Workshops for engineering qualification (Hosted at assigned 4 sites. A total of 247 certified engineers)

Areas of Interest

Photovoltaic	Smart Community
Wind Power	Ground-Source Power
Hydroelectric Power	Storage Battery
Biomass	Hydrogen Energy
Others ()	

Suggestions & Proposals

- Establish and promote maintenance techniques for photovoltaic power systems
- Develop maintenance engineers for photovoltaic power systems
