Areas of Business

Steel fastening products
Manufacturing and Selling

Major Products / Technologies / Services

Bolt, dog spike, high-strength structural bolt, fish bolt, screw spike for rails, special screw and bolt parts, heat treatment processing and other kind of bolts in general

Business Conduct in the Field of Renewable Energy

Introduction

TOHOKU BOLT MFG is especially skilled at manufacturing high quality large-diameter bolts, by using hot forging and heat treatment techniques. Wind power bolts, bolts for construction machineries and fastening parts for railways are widely spread out not only in Japan but also worldwide. TOHOKU BOLT MFG was selected one of excellent 300 small and medium-sized enterprises by Ministry of Economy, Trade and Industry in 2014.

Areas of Interest

Photovoltaic	Smart Community
Wind Power	Ground-Source Heat
Hydropower	Storage Batteries
Biomass	Hydrogen Energy
Others ()	

Track Record

Delivery records of bolts for wind power generating facilities

- In Japan : Over 200 wind farms
- Abroad : U.S.A. and more

Suggestions & Proposals

TOHOKU BOLT MFG is provided with high-grade quality inspection facilities and traceability systems for manufacturing; every measure to accomplish the quality which next-generation industries such as renewable energy-related industry required is taken here.

Moreover, we have a capability to manufacture bolts qualified for European Norm (European Standards).
