

**MODIFICATION No.2 TO THE PRACTICAL
ARRANGEMENTS**

between

FUKUSHIMA PREFECTURE

and

THE INTERNATIONAL ATOMIC ENERGY AGENCY

on

COOPERATION IN THE AREA OF

RADIATION MONITORING AND REMEDIATION

This Modification No.2 to the Practical Arrangements on Cooperation in the Area of Radiation Monitoring and Remediation is made between Fukushima Prefecture, whose address is 2-16 Sugitsuma-cho, Fukushima City, Fukushima Prefecture 960-8670, Japan; and the International Atomic Energy Agency (hereinafter referred to as the “IAEA”), an intergovernmental organization established by its Statute, whose address is Vienna International Centre, P.O. Box 100, 1400 Vienna, Austria. Hereinafter, Fukushima Prefecture and the IAEA will also be referred to individually as a “Party” and collectively as the “Parties”.

WHEREAS the Practical Arrangements between Fukushima Prefecture and the International Atomic Energy Agency on Cooperation in the Area of Radiation Monitoring and Remediation were signed by the IAEA on 6 December 2012 and by Fukushima Prefecture on 14 December 2012 (hereinafter referred to as “the Practical Arrangements”);

WHEREAS Modification No.1 to the Practical Arrangements was signed by the IAEA on 28 April 2016 and by Fukushima Prefecture on 20 May 2016; and

WHEREAS the Parties desire to modify Paragraph 2 (“Scope of Cooperation”) of the Practical Arrangements and also to extend the duration of the Practical Arrangements.

NOW, THEREFORE, the Parties have reached a common recognition on the following:

1. The duration of the underlying Practical Arrangements will be extended until 31 December 2022.
2. Paragraph 2 (“Scope of Cooperation”) of the Practical Arrangements is hereby modified to read as follows:

“The Parties have identified the following areas and activities in which cooperation may be pursued, subject to the Parties’ respective mandates, governing regulations, rules, policies and procedures:

- Research and study on remediation of environment in Fukushima Prefecture;
- Research and study on management of radioactive waste from decontamination activities; and
- Research and study on radiation monitoring, including application of environmental mapping technology by using unmanned aerial vehicles, long term monitoring of radioactive materials in the forest areas, and associated countermeasures.

The above-referenced cooperation is designed to complement existing Japanese activities and to provide immediate assistance and support which will be of direct benefit to those living in Fukushima Prefecture”.

3. Except as provided in Paragraphs 1 and 2 of this Modification No.2, all other paragraphs of the Practical Arrangements will remain unchanged.
4. This Modification No.2 will be valid on the date of the last signature by or on behalf of the Parties and will remain valid for the duration of the Practical Arrangements.
